connecting AS ONE.

We live in an interconnected world in which our lives and interests regularly meet and rub edges. Like pieces of a puzzle, our interlocking relationships define us, guide us, and present us with a view to the world that we could never discover alone. Relationship is foundational to the work of Saint Francis Ministries, and this is especially apparent in our FY 2019 Annual Report.

Everywhere you look, Saint Francis is expanding by building relationships, especially in Kansas, Nebraska, Oklahoma, Texas, and Mississippi, and now Arkansas. By forging new collaborative connections with states, partner agencies, and donors, Saint Francis can provide the services those in our care need most.

None of this occurs without relationships. Like the puzzle, each piece is essential to the big picture. You are part of that picture, and without you we have a hole, a gap in our connection. Your relationship with Saint Francis makes everything possible.
