

Saint Francis Capacity Building Funding – Application

PURPOSE

The purpose of capacity building funding is to increase capacity in Region 01 to help create an environment where children and families will be successful in their communities. Saint Francis has created a Capacity Building Plan in partnership with current SSCC's and a Regional plan focused on achieving the following outcomes:

- 10% increase in placement stability for children
- 50% increase in Treatment Foster Care(TFC) Capacity in Region 1
- 15% increase in stabilization of kinship placements
- 25% increase in in-region placements for children
- 5% increase in placements of children in their communities

Based on legislative language the funding needs to meet the below criteria for request –

- Supplemental payments to retain providers and increase provider capacity.
- Targeted foster care capacity grants across this state to address the existing foster care capacity shortage.
- The grants should focus on:
 - o region 01;
 - o serving children with the highest level of need;
 - expanding certain types of placements and bringing new providers and capacity online; and
 - o promoting long-term viability of child placements.

Saint Francis has elected to look at various funding streams as indicated in the Capacity Building Plan – Saint Francis Ministries.
